WebHostingM Cookie Policy

Overview

Like most service websites, we use cookies for a variety of purposes. This page explains what cookies are and highlights the specific cookies we use on our websites.

What are Cookies?

A cookie is a small piece of text sent to your browser by a website you visit. It helps our websites remember information about your visit, such as your preferred language and search preferences. Cookies play a crucial role in enhancing your user experience by making your subsequent visits easier and the website more useful.

Account-Related Cookies

When you create an account with us, we use cookies for managing the signup process and general administration. These cookies are usually deleted when you log out. However, in some cases, they may remain afterwards to remember your site preferences even when logged out.

Login-Related Cookies

We use cookies to remember your login status. This prevents the need to log in each time you visit a new page. These cookies are typically removed or cleared when you log out, ensuring that you can access restricted features and areas only when logged in.

Email Newsletters-Related Cookies

Our site offers newsletter or email subscription services, and cookies may be used to remember if you are already registered. They help determine whether to show certain notifications which might only be relevant to subscribed/unsubscribed users.

Orders Processing Related Cookies

For e-commerce or payment facilities, some essential cookies ensure that your order is remembered between pages, allowing us to process it properly.

Surveys-Related Cookies

Occasionally, we offer user surveys and questionnaires for insights, helpful tools, or understanding our user base more accurately. These surveys may use cookies to remember who has already participated or to provide accurate results after page changes.

Forms-Related Cookies

When you submit data through forms, such as those on contact pages or comment forms, cookies may be set to remember your user details for future correspondence.

Site Preferences Cookies

To provide a great experience, we enable the functionality to set your preferences for how our site runs when you use it. Cookies are necessary to remember your preferences and are called upon when interacting with a page affected by your settings.

Third-Party Cookies

In some cases, we use cookies provided by trusted third parties. The following section details which third-party cookies you might encounter on this site.

For example, we use Google Analytics, a widespread and trusted analytics solution, to help us understand how you use the site and identify ways to improve your experience. These cookies may track things such as your duration on the site and the pages you visit, which assists us in producing engaging content.

For more information on Google Analytics cookies, see the official Google Analytics page.

We may also use third-party analytics to track and measure usage of our site, helping us to produce engaging content. These cookies track metrics such as how long you spend on the site or the pages you visit.

From time to time, we test new features and subtly change the way the site is delivered. During these test phases, cookies may be used to ensure a consistent user experience and help us understand which optimizations are most appreciated.

As a commercial website, understanding statistics about how many visitors make a purchase is crucial. These cookies track such sales data, allowing us to make informed business predictions and adjust our advertising and product costs to provide the best prices.

We use advertising cookies to offset the costs of running this site and to fund further development. The behavioral advertising cookies ensure that we provide you with relevant adverts by anonymously tracking your interests.

Affiliate tracking cookies allow us to see if our customers have come to the site through one of our partner sites. This helps us credit them appropriately and enables our affiliate partners to offer any bonuses for making a purchase.

Additionally, we use social media buttons and/or plugins that let you connect with your social network in various ways. Social media sites, such as {List the social networks integrated with your site?:12}, will set cookies through our site. These may be used to enhance your profile on their site or contribute to the data they hold for various purposes outlined in their respective privacy policies.

More Cookie Information

Hopefully, this clarifies things for you. As previously mentioned, if you're unsure about needing a particular cookie, it's usually safer to leave cookies enabled. This ensures they can interact with the features you use

on our site. For a list of cookies that may be stored, please visit the online version of this document at
https://webhostingm.com/cookie-policy.
